<sup>2</sup> Floor space defined as width x depth of main unit base, compared to similarly featured A3 color laser printers and copiers at 51–60 ppm based on manufacturers' specifications and industry available data as of March 2022.  
<sup>3</sup> Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect enabled printers and compatible devices and apps, visit [www.epson.com/connect](http://www.epson.com/connect)  
<sup>4</sup> Requires Epson Smart Panel app download. Data usage fees may apply.

<sup>7</sup> Wi-Fi CERTIFIED™ level of performance subject to the range of the router being used. Wi-Fi Direct® may require printer software.  
<sup>8</sup> Only printing and scanning are supported under Windows Server OS.  
<sup>9</sup> Some applications and/or functions may not be supported under Mac OS X.  
<sup>10</sup> RAM size definition is the total amount of RAM memory capacity inside the device, regardless of memory use.  
<sup>11</sup> Internet access is required to install OS X drivers and software.  
<sup>12</sup> Not all media types are supported for PCL printing.  
<sup>13</sup> Cartridge yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer startup and a variable amount of ink remains in the cartridges after the "replace cartridge" signal. For details, visit [www.epson.com/inkinfo](http://www.epson.com/inkinfo)  
<sup>14</sup> Display permanence based on accelerated testing of prints displayed under glass in indoor display conditions; album permanence based on accelerated testing of prints in dark storage conditions. Actual print stability will vary according to media, printed image, display conditions, light intensity, temperature, humidity and atmospheric conditions. Epson does not guarantee the longevity of prints. For maximum print life, display all prints under glass or UV filter or properly store them.
